Responsive multi-page news portal featuring world, sports and business content with a structured Bootstrap interface.

HTML5 • CSS3 • Bootstrap • JavaScript | Live Project

EXPERIENCE

Sales Executive | Arckon Digital | 3 Months

- Handled digital-art sales and client outreach across Discord, Twitch and Twitter.
- Engaged potential clients, gathered custom artwork requirements and communicated them through the creative workflow.
- Strengthened online client communication, lead engagement and sales relationship-building skills.

Computer Operator | Documentation & Office Work | 3 Years

- Created and formatted examination papers, timetables, notices and other academic/office documents.
- Prepared professional CVs, resumes, job applications, letters and general documentation.
- Developed strong typing accuracy, formatting discipline and client-requirement handling.

ADDITIONAL PROJECT

Lab Automation System | Workflow Concept

Role-based laboratory workflow designed around Admin, Manager and Tester interfaces for managing product-testing processes.

Role-Based UI • Database Design • Workflow
